

Do your therapists need CEUs?

Through our commitment to taking care of fellow therapists, Career Improvement & Advancement Opportunities (CIAO) provides local, affordable, quality continuing education courses that enhance a therapist's marketability and skills - ultimately benefiting patients.

Many of CIAO Seminars' courses tour across the country and are usually held in neutral, convenient locations such as hotels near airports. It is understandable that there are cases where travelling to one of these public courses is not feasible or cost-effective. Or, your therapists may be interested in one of the courses not currently on tour. In these instances, it may be an option for a facility to host one of our courses, at their location, for their therapists. These "private" courses are convenient for therapists as well as their facilities – eliminating the need for travel, additional time off work, scheduling conflicts, etc. You select the course and the date, then provide the location and the therapists. We handle everything else!

CIAO's Private Courses Offer:

- A dedicated Event Coordinator to walk you through the entire process of holding the event
- Highly respected, qualified, seasoned instructors
- An on-site CIAO representative to manage the course from start to finish
- Pre-approved programs where applicable with professional organizations in state and nationally with ASHA, AOTA, BOC, NBCOT
- A wide variety of continuing education courses for therapists
 - OT/COTAs
 - PT/PTAs
 - SLP/SLPAs
 - ...and more!
- Customized marketing templates
- All necessary course materials
 - Manuals
 - Sign-in sheets
 - CEU certificates
- State board CEU approvals
- Post-course ASHA submissions (for SLPs)
- Seven-year management of professional board documentation, as required
- ... all this, with fun, humor, and Southern hospitality!

There are over 40 courses currently available on our 2018 Private Course Menu!

If you are interested in learning more, please contact Chris at 850-916-8886 or chris@ciaoseminars.com

We look forward to helping you bring quality continuing education to your therapists!
